# About PLAN-E

- PLAN-E was founded October 2014 in Amsterdam
- PLAN-E is a social network of escience organisations across Europe, with the following characteristics
  - They operate closely to or with the researchers
  - They operate closely with the ICT, ICT-infrastructure and Computer Science domains
  - They develop, evaluate, create new solutions to problems and cover
    - HPC
    - Data Science
    - Visualisation
    - Cloud and cross-resource integration
    - And other relevant ICT-related domain or technology
- PLAN-E is based on Terms of Reference, describing its goals, defining eScience and PLAN-E operational models
- PLAN-E members meet regularly, at least twice a year, each time in a different European country
