

PLAN-E Platform of National eScience Centers in Europe

Program for the PLAN-E plenary, Rome 15-16 April 2019

As usual at PLAN-E Plenaries, “Workshop session” means to split up in breakout groups and discuss the topic at hand. Each break-out group will use a separate Google docs document where all remarks and points of view are recorded by the individual participants for later reporting. After each session someone from each break-out group will do the plenary reporting of the outcomes of the discussion.
